EDUCATION

Monash University <i>Master of Information Technology</i>	Melbourne, Australia <i>Currently Enrolled</i>
Manipal Institute of Technology <i>Bachelor of Technology: Information Technology</i>	Manipal, India <i>Graduation Date: September 2021</i>

WORK EXPERIENCE

MOSAIC <i>Full Stack Engineer (Volunteer)</i> <ul style="list-style-type: none">Building web applications with Vue.js, with a focus on front-end development, and integrating with AWS serverless services (S3, Lambda, DynamoDB, API Gateway, Cognito) for secure and scalable solutions.Built CI/CD pipelines with GitHub Actions and containerized workloads with Docker & Kubernetes, reducing release cycles by 40% and enabling efficient scaling.Strengthened application security and authentication by implementing AWS Cognito, IAM policies, and role-based access control, while collaborating in Agile (Scrum) teams to deliver production-ready features.	Jakarta, Indonesia <i>April 2025 - Present</i>
Darwinbox <i>Senior Integration Consultant</i> <ul style="list-style-type: none">Led the development and optimization of API integrations using Python & R, improving data interoperability and automation across enterprise clients, reducing system downtime by 20%.Designed and automated data integration workflows, enhancing system efficiency across legacy and modern platforms.Led the migration of legacy code to Python & R, improving system maintainability and performance.	Jakarta, Indonesia <i>April 2024 - July 2024</i>
<i>Integration Consultant</i> <ul style="list-style-type: none">Developed and deployed API-based integrations using Python & R, improving data interoperability and automation across enterprise clients in banking, automotive, retail, and sustainability sectors.Optimized data pipelines and ETL processes, achieving 95% accuracy in integration testing.Led technical workshops on integration best practices, improving adoption rates by 75%.	<i>October 2022 - March 2024</i>
<i>Implementation & Account Management</i> <ul style="list-style-type: none">Managed the end-to-end deployment of a cloud-based HR system for 130+ clients, reducing implementation time by 50%.Developed custom dashboards & reporting tools using Power BI & Tableau, enabling better data visualization & strategic decision-making.Collaborated with cross-functional teams, ensuring seamless system integration and adoption	<i>February 2021 - January 2023</i>

SKILLS & TECHNOLOGIES

Programming & Development: Python, R, SQL, Java, JavaScript, HTML, CSS, Vue.js, Bootstrap, Tailwind, PrimeVue

Cloud & DevOps: AWS (S3, Lambda, DynamoDB, API Gateway, Cognito, IAM), Docker, Kubernetes, GitHub Actions, CI/CD

APIs & Integration: REST APIs, OAuth, Postman, SSO Implementation
Databases: MySQL, PostgreSQL, DynamoDB

Data & Analytics: Power BI, Tableau, Pandas, ETL Pipelines

Development Practices: Agile (Scrum, Kanban), API-Driven Development, Git/GitHub

Security & Compliance: Secure Data Handling, Encryption (PGP, SSH), IAM Policies

Currently Learning (Academic Projects): Kotlin, Jetpack Compose, Distributed Systems
